

A woman with dark hair, wearing sunglasses and a black, perforated one-piece swimsuit, is floating on her back in a swimming pool. Her arms are raised, and her hands are behind her head. The water is clear and blue, with sunlight creating shimmering patterns on the surface. The text "Bespoke Options" is centered over the image in a dark, serif font.

GOURMET PACK

If food and cooking are your passions, why not enjoy the luxury of a fully-equipped professional kitchen that will last a lifetime? Available for both inside and outside.

Essentials such as professional grade appliances and a space with a logical workflow make all the difference when you are creating in the kitchen.

Large work surfaces, adequate storage, chef's knives, immersion blenders, cast iron pans, digital thermometers and microplanes are just some of the items that make cooking a pleasure.

EARTH PACK

Grow your own fruit and vegetables from a plot in your garden. Pick fresh herbs from the kitchen garden and enjoy a truly organic diet.

In addition to better flavour, growing your own vegetables helps you and your family to better health. Vegetables that ripen in the garden have far more nutrients than store-bought vegetables that must be picked early.

With the amount of sunlight hours here in southern Spain, you can grow practically anything. Home grown vegetables reduce your carbon footprint and create a sustainable quality of life.

KIDS PACK

If young children are a part of your family, you'll want them to have a safe outdoor playground, and where better than in your own garden, where you can also keep an eye on them.

Shaded play areas, with safe protective rubber surfacing to insure against falls and all sorts of bespoke configurations creating an adventurous play zone for tiny toddlers right up to teenagers.

Inside spaces will need to be child-proofed with plug protectors, stair gates and baby alarms. Older children can have their own space to study. The options naturally depend on your family's needs.
